

Quality Policy

The core of Ashhurst Engineering and Construction (AEC) is providing highest quality steelwork solutions to the energy generation and transmission including telecommunication industries nationwide, leveraging our industry-leading manufacturing and project management capabilities.

In respect of this AEC will:

- Consistently provide products and services which meet or exceed customer's expectations of compliance, while also meeting budget and schedule requirements.
- Pursue non-conformance prevention internally rather than non-conformance detection externally.
- Have competent employees in a safe and healthy work environment that fosters excellence and professional development.
- Implement best practices at all levels and ensure reliable risk management.
- Aim to preserve the environment and seek sustainability excellence.
- Strive for sustainable profits annually.
- Collectively commit to achieve and exceed ISO 9001 Quality Management System.

Our aim is 100% customer satisfaction.
